| 17 Dec 2014 3 - 5pm HKAS Chal Wan Campus, Youth Square | **Project Meeting**  
A meeting was held to update involved members about the current progress.  
The attendance list and items discussed are listed in Appendix 1. No meetings were held thereafter until February 2015 since the project has entered the technical stage of web construction and digitization. | Six HKAS Staff (Management, Administrative, Lecturer) |
| Dec 2014 – Feb 2015 | **Material Digitalization (Physical Books)**  
The items for digitization were picked up by the service provider in December 2014, samples were received in January 2015, completed files were received in February 2015 and screened for image quality and OCR accuracy. Digitized materials were uploaded to the database in Feb 2015. The full list of 164 items is attached as Appendix 2. | Service Provider |
| Dec 2014 - Feb 2015 | **Digital Materials (e-books / e-magazines subscriptions)**  
Subscription providers reported that very few of our shortlisted titles of 37 items (Appendix 3) are available. We therefore decided to send our full list of potential items to enquire for their availability. Manpower was allocated to search ISBN of 592 potential items (Appendix 4) for subscription providers to locate in their database. The plan for subscription is planned to be in July since subscriptions are on an annual basis. Purchasing prior to the launch date would put resources to waste. | Potential Service Providers |
| Nov 2014 – Feb 2015 | **Website Construction**  
The service provider has set-up the website in Nov 2014 on their testing server for the ease of parallelising their construction and our end-user testing. An online log was also created between the provider and us to note down bugs and follow-up actions (Appendix 5).  
In Dec 2014, our team has given further aesthetics comments on page layouts, the Logo, element placements, etc. The site was then migrated to the production server, along with a purchased domain name. Major bugs and logical errors were found in Jan 2015 after the migration, followed by unforeseen server problems (excessive CPU and network usage) in Feb 2015. | Service provider’s team and 2 HKAS Staff (Administrative, Technical) |
Quality Enhancement Support Scheme

The pilot run in Feb 2015 was done in parallel with debugging and server fixes, which covers Navigation (Links and Logic flow) and All major functions (Quick Search, Advanced Search, Permission Levels, Log-in, Media Viewer, Data Import/Export, File uploading, etc). We have spent more time than expected since we cannot proceed to test on certain functions before the bugs of another function are cleared (e.g. Search function cannot be tested when File uploading has failed, File uploading cannot be tested when Data import has a bug). However, all bugs have been cleared and server is stabilized after the pilot run, and is currently under monitoring as of the reporting date.

*There is no documentation for pilot run since bugs and errors are immediately logged online and fixed according to provider's manpower allocation. The raw log is attached as Appendix 5 for your record.

*Screen captures of the current website's appearance is attached as Appendix 6, along with descriptions of functions and features. The domain name of the website is www.artspan.hk, but will not be accessible by the public until the launch date. Please do not attempt in accessing at this stage as it may cause our monitoring system to misdiagnose suspicious network activities.

* Evidence showing the attainment of milestones scheduled for completion during the reporting period should be attached (e.g. photos, learning materials, webpage screens, promotion leaflets / posters, relevant reports, etc.).

2. The percentage, in terms of key tasks, of the project completed at the end of the reporting period
