

QEGS Funded Project :

Career Counseling Services
Scheme (CCSS)
(2009/10 – 2010/11)

September 2010

Project Objectives

- To enhance support to Higher Diploma students in planning for their career development;
- To provide training for staff in career guidance to better meet students' needs; and
- To network with potential employers to maximise employment opportunities for students;

Deliverables

1. Training Workshops and Seminars on Career Development
2. Training Programmes on Psychometric Assessment Tools
3. Career Resources Information Kit
4. Psychometric Assessment Tool for Career Counseling
5. Networking with Industries

1. Training Workshops and Seminars on Career Development

- To enhance staff's skills on career guidance
- To update staff with knowledge of the latest development of market trends by veterans of industry

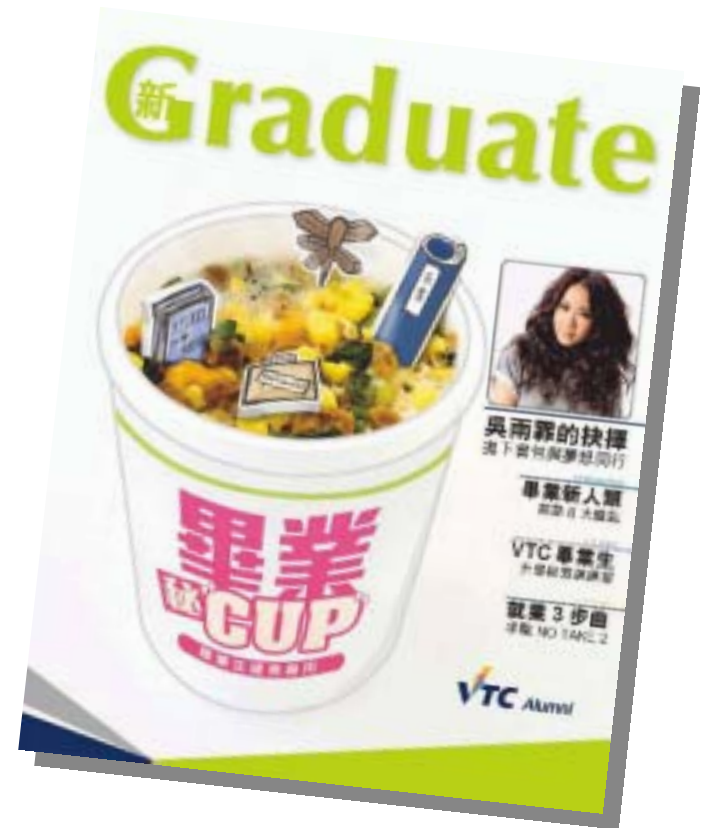

2. Training Programmes on Psychometric Assessment Tools

- To equip staff with competence required in application of psychometric and personality tests for career counseling

3. Career Resources Information Kit

- To provide graduating students with updated career information and resources for planning their career development and further studies

4. Psychometric Assessment Tool for Career Counseling

- To help students better assess their career interests with consideration of their personal preferences, different job types and requirements, and their career needs

5. Networking with Industries

- To provide students with updated industry information
- To enhance support to students in planning for their career development
- To network with employers on employment opportunities for students
